

## Stern Fenders

Anchor Marine has been manufacturing inflatable buoys and fenders in the United Kingdom for over 50 years. Our wide range of buoys can be found in both hot and cold climates internationally, recognised universally by our 'blue spot'.

Popular for commercial and leisure use, the practical design, resistance to bursting, exceptional ruggedness and durability are synonymous with Anchor Marine products.

### Stern Fenders

In order to protect the vulnerable stern or bow, Anchor Marine's unique stern fender can be roped firmly in place from the safety of the cockpit.

The stern fender can be attached by four attachment eyes or secured in series up to three or four long via a central through line.

It will provide instant protection, particularly when moored end-on in a marina.

The award winning stern fender also offers the same invaluable protection against docksides and stock pilings.

The stern fender is great at protecting the bow, and the ideal solution for swim-platforms.

| Part no | Colour         | Height x width x depth                  | Hole size<br>mm | Hole centre<br>mm |
|---------|----------------|---|-----------------|-------------------|
| 0203    | white/<br>blue | 230 x 530 x 230 mm<br>8 x 21 x 8 inches | 15              | 21                |
